

The Future Of Line Marking
Product Brochure

1L of Our Paint

Covers an estimated

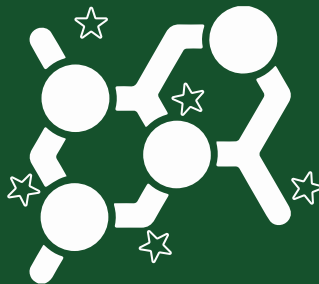

5 million

blades of grass.

We use nothing but the finest materials including:

TiO₂

(titanium dioxide)

Stacking all the line marking paint drums we supply annually would reach a height of

21km

This equates to 2.3 times the height of

Mount Everest

We supply
1 million
kilograms of line marking paint annually

Equalling the weight of

150

adult elephants

Our products are supplied to over

80%

of European countries

We supply to an estimated
20,000
pitches
worldwide

The World's Best

play on pitches marked by Pitchmark

We have supplied

5 major

football tournaments in the last 10 years

About Us

Founded in 2010, Pitchmark is a Queen’s Award-winning family business based in Bristol, UK, with a vision of raising the standard of line marking and to improve the quality of working life for ground staff globally.

Our mission is simple: to provide the best and most user-friendly products on the market at competitive prices. Supplying products is backed up by our customer-focused approach to service and support. All these factors are fast making us the number one choice in line marking internationally.

Our clients include some of the world’s best grounds staff, whose work is seen by millions of people every week. As well as leading grounds staff, our products are also used by grounds staff at grassroots sport level.

We are proud to play a small yet important part in UEFA Euro 2020™, FIFA World Cup 2022™, Champions League™, English Premier League™ and more.

Line Marking Paint

We supply a complete range of specialist line marking paints for any customer and any sport.

Our advanced technology paints are carefully developed, thoroughly tested and all are water-based and eco-friendly with a very low level of VOCs (Volatile Organic Compounds).

Our paint is manufactured from the highest quality pigments and binders available, enabling us to offer the most consistently bright and weather-resistant products in the marketplace.

Line Marking Machines

We manufacture a range of line marking machines including wheel-to-wheel, and spray line markers.

Our line marking machines are hand-built in Bristol to the highest specification and from the best materials available, guaranteeing strength and durability.

What makes our machines so unique is that they are designed by grounds staff, for grounds staff, ensuring they are the most user-friendly machines on the market.

HYBRID

3-Wheel Spray Marker

Our **Hybrid** is the premium line marking machine designed with and for sports turf professionals, perfect for use on stadium pitches.

The **Hybrid** combines the manoeuvrability of a three-wheeled marker with the efficiency of a spray marker.

Advanced patent-pending technology on the highly-engineered front wheel, combined with the proven spray system from the **Eco Club** and **Eco Pro**, give perfect results on the pitch.

Removable 25-litre paint tank

Unique front wheel gives the machine great precision & manoeuvrability for lifting over lines.

High-pressure pump combined with 3-stage filtration gives consistent quality lines and fewer blockages.

The **Hybrid** at the Vicarage Road stadium in Watford, England.

Battery allows marking of up to 18 full-size football pitches, with external socket for recharging.

Simple switch to turn the machine on and off quickly and easily.

Manufactured by hand at Pitchmark headquarters in Bristol, UK.

ECO CLUB

Spray Marker

An easy-to-use spray line marking machine, offering customers versatility and affordable quality.

Designed by grounds staff, for grounds staff, straightforward to use and easy to maintain for all users. To make the job even quicker and easier, try our ready-to-use **Ecoline+** and **Direct** paints and save time by cutting out the need to mix paint.

Strong tubular steel spaceframe chassis.

High-pressure pump combined with 3-stage filtration gives consistent quality lines and fewer blockages.

Easily-adjustable 50mm to 150mm (approx. 2" to 6") line width.

The **Eco Club** at Le Parc des Princes in France

Battery allows marking of up to 6 full-size football pitches, with external socket for recharging.

This machine can be upgraded with drop-in tanks & higher power batteries.

Easily adaptable for side-marking, 3-lane 'Athletics Boom' or the 'Greenkeeper's Spray Boom'. (Not included)

ECO PRO

Spray Marker

The **Eco Pro** is a high-end upgraded version of our popular **Eco Club** spray marker, and is just as easy-to-use for all grounds staff.

Using the same proven chassis and components to achieve a fantastic line, the **Eco Pro** significantly benefits from extras including a 25L paint tank, a 6L water tank for cleaning, as well as a larger battery for extended use.

Removable 25-litre paint tank and 5-litre water tank for cleaning.

High-pressure pump combined with 3-stage filtration gives consistent quality lines and fewer blockages.

Strong tubular spaceframe chassis with easily-adjustable 50mm to 150mm (approx. 2" to 6") line width.

The **Eco Pro** at SGS College in Bristol, England

Battery allows marking of up to 9 full-size football pitches, with external socket for recharging.

Accessibility to all parts allowing easy maintenance.

Easily adaptable for side-marking, 3-lane 'Athletics Boom' or the 'Greenkeeper's Spray Boom'. (Not included)

FUSION

Spray Marker

Affordability, performance, and appearance make the **Fusion** an excellent choice for all line marking needs. Combining both the style and engineering from its older sibling, the **Hybrid**, along with a high-density polyethylene (HDPE) body instead of a steel chassis.

Our **Fusion** also boasts advanced patent-pending technology on the highly-engineered front wheel, combined with the proven spray system from the **Eco** range, giving perfect results on the pitch time after time.

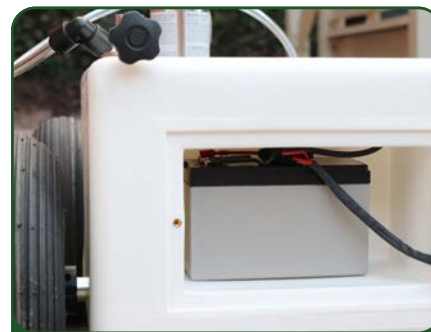

View in 3D

High-density polyethylene (HDPE) body with adjustable front end and handlebars.

High-pressure pump combined with 3-stage filtration gives consistent quality lines & fewer Blockages.

Battery allows marking of up to 6 full-size football pitches, with external charging & switch cable port.

ECO LITE

Spray Marker

The **Eco Lite** is designed by grounds staff, for grounds staff, so is straightforward to use and easy to maintain for all users.

The plastic chassis is a real game changer, reducing costs dramatically, whilst maintaining the sturdiness that's synonymous with the Pitchmark brand.

During testing, grounds staff were surprised with just how robust & sturdy the machine felt in-hand.

View in 3D

Convenient slot in the body for an aerosol can.

Optional drop-in 25L paint tank.

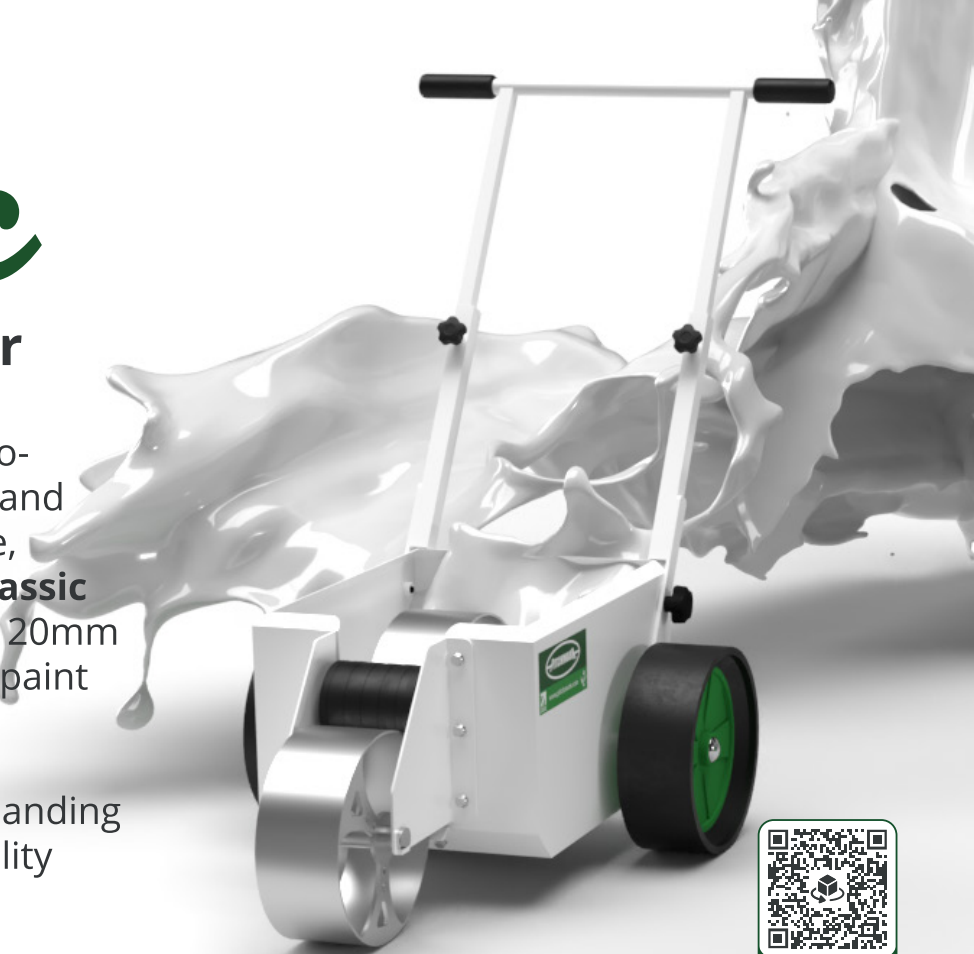

Body holds 1 x 10L or 2 x 5L paint drums.

Classic

Transfer Wheel Marker

The **Classic** is extremely easy-to-use and popular with amateur and professional grounds staff alike, including several stadia. The **Classic** is available in 50, 75, 100, and 120mm line width variants with an 18L paint capacity.

This machine is made to a demanding specification from the best quality materials available.

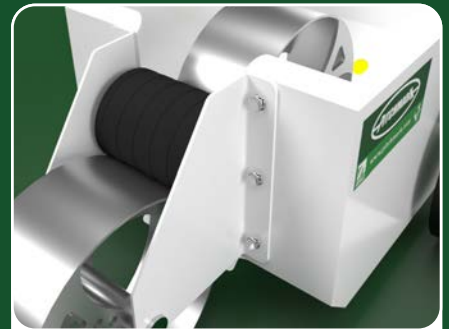

View in 3D

Very strong powder-coated steel frame with adjustable handlebar height.

Solid puncture-proof wheels offer consistently smooth operation.

Unique polyroller combined with precise transfer wheels gives a great line, every time.

Classic ^{mini}

Transfer Wheel Marker

Almost identical to the standard **Classic**, the **Mini** has a slightly smaller capacity at 14L allowing you to mark over two full size football pitches. The Mini has a 100mm (or 4 inch) line width.

The **Classic** range is extremely easy-to-use and popular with amateur and professional grounds staff alike, ranging from grassroots, all the way up to Premier League clubs & World Cup stadia.

Accessories & Spares

We supply a complete range of accessories and equipment to help with marking your sports pitch.

Listed on the right are some of our most popular & fundamental accessories for marking pitches, but more can be found on our website.

If you want your pitch to look smart & professional, our field accessories will suit you down to the ground.

We also stock a full range of spare parts for our machines, making it easy for you to fix and service them yourself.

Aerosol Spray Cans 750ml

Pitchmark's Promarker aerosol cans are perfect for a wide range of hard surfaces, artificial grass and spot marking on natural grass.

100m Measuring Tape

This sturdy 100 metre (330ft) measuring tape is perfect for grounds staff when setting out pitches for the initial mark, helping you create the most accurate pitch possible.

200m String Line

A specialist string designed & developed for line marking. Specifically designed not to stretch, allowing you to have perfect straight lines!

Pitch Marking Pegs

For stringing out and marking sports pitches on grass. These pegs have a screw thread to make it easier to use when the ground is hard, particularly in the summer months.

Professional Marking Kit

The Professional Marking Kit from Pitchmark is the perfect complete pre-season kit to enable groundsmen to measure and string out pitches from scratch.

Spare Parts

We supply all required spare parts & replacements for our range of line marking machines. These can be purchased through your nearest distributor.

Greenkeeper's Boom

Quickly and easily transform a Pitchmark Eco Club or Eco Pro marker into a pedestrian chemical sprayer within minutes.

Athletics Boom

Allowing you to mark up to 3 lines at the same time, the Athletics Boom is easily installed on the front of an Eco Club or Eco Pro spray marker by sliding on the front end.

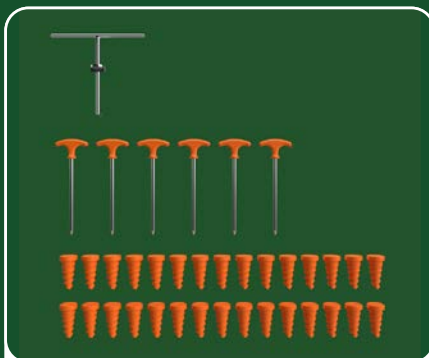

LINEFIX

Socket System

LineFix is a unique, innovative system specially developed for the re-marking of sports pitches.

LineFix is perfect for line marking on winter sports pitches like rugby and football, as well as for cricket wickets. **LineFix** is also suitable for pitch mowing bands amongst other uses.

Installed by screwing into the ground just below the surface, the sockets remain in place all season, allowing you to string out completely accurately week after week.

LineFix Starter Kit: 30 sockets, 6 pins, key, and carry bag.

Save time by not having to measure your pitch every season – leave sockets in the ground.

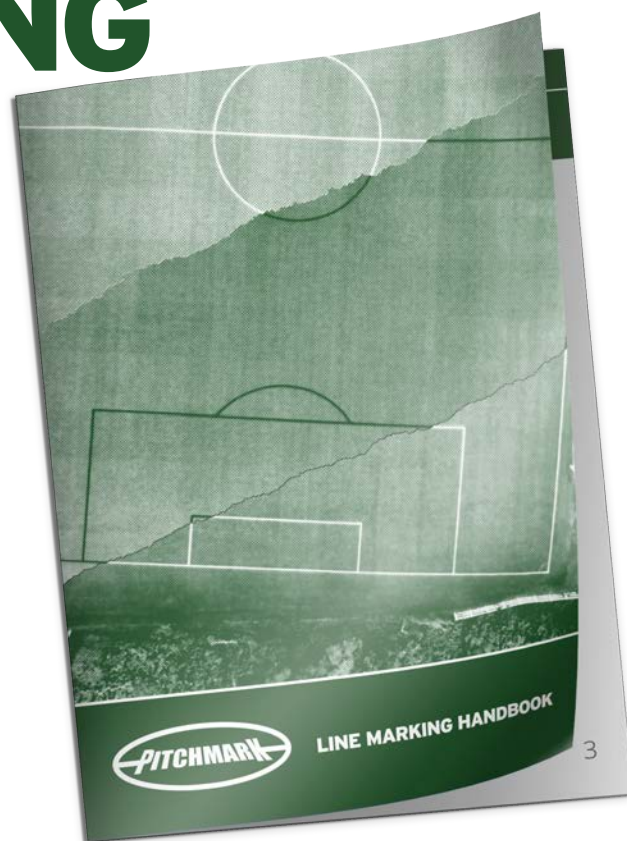

LineFix Mowing Pins can be used to repeatedly string accurate mowing bands, time after time.

LINE MARKING

Handbook

Our aim at Pitchmark is to help make life easier for ground staff worldwide, especially when it comes to line marking, so we've produced some advice and a number of diagrams to help with the process of line marking.

This handy pocket-size booklet will speed up your line marking, cut time and most importantly; cut costs, by allowing you to mark more pitches and minimise the time spent finding pitch dimensions.

Concise 8-step how-to mark a pitch guide.

Contains 22 pitch, court and track dimensions to aid you when out initial marking.
